

# Overview of the refinements

Following our supplementary consultation held earlier this year, we have continued to work with our stakeholders and statutory consultees to develop our design for the Lower Thames Crossing. This has resulted in a number of design refinements, which we are now consulting on.

To view a summary of the refinements click on each number labelled on the map to the right.

More in-depth information on each refinement can be found here [www.lowerthamescrossing.co.uk/design-consultation](http://www.lowerthamescrossing.co.uk/design-consultation)
